

DIEL Technologies is proud to present:

# FlexTube™

The New Eco-Friendly  
Tube-Packaging Technology

## Winner: the best innovative packaging the Israeli star packaging award competition 2020

Diel Technologies (member of Wizer Technologies Group)  
is proud to announce its brand new  
tube-packaging technology: **FlexTube™**.

FlexTube™ is an innovative eco-friendly flexible tube,  
with folding properties which enabling the consumer to reclose it repeatedly,  
and to squeeze the content out up to the last drop.  
The folding properties based on BandSeal™ - Diel's proprietary technology.

### Eco-Friendly

100% recyclability, less packaging, No Waste!!!

### Excellent User Experience

Endless variety of user experiences for each and every consumer segment

### Comfort and Efficient

Can be folded and re-folded, squeezing everything out up to the last drop

### Cost Effective

Reduction of 80% from the weight of the packaging  
and 80% saving in storage and transportation volumes

### Beauty and Self Protection On-The-Go

The ideal solution for using personal products outside home.
